Skills

Basic Skills

Before the Iron Yard, I had a fascination with tinkering with website design, not I have to tools to get the layout done efficiently, and professionally. My attention to detail with layout and design is something that I pride myself in.

- Html5
- CSS3
- Bootstrap
- Sass
- Responsive Design

Javascript

I began the Iron Yard with no javascript knowledge, and am now fully versitile with javascript and javascript frameworks. For my final project, I used Angular.js with a boiler plate comprised of NodeJs and MongoDB. I was especially proud of my ability to manage the scope of my project and turn

- Backbone.js
- Angular.js
- jQuery
- Underscore.js
- JSON/JSONP

Testing tools

A portion of our projects at the Iron Yard were required to be fully tested so that we could get experience writing test driven applications.

- Mocha

Other Skills/Tools

As stated previously my final project allowed me to learn a litle about MongoDB and NodeJs. I was excited to get a little hands on experience with a new set of backend tools. At the Iron Yard, Github and package managers were a part of everyday life, these things come natural by now.

- light MongoDB
- Light NodeJs

- AJAX
- Github
- NPM
- Bower

- Great communication skills
- Great interpersonal skills
- Multi-tasking
- Well Organized
- Time management
- Attention to detail

Previous work experience
